

# MEGA Meme Coin – Whitepaper v1.0

## Abstract

MEGA is a community-driven meme coin designed to blend playful culture with transparent tokenomics and practical utilities such as tipping, merch discounts, and community contests. This document outlines the mission, supply, distribution, and roadmap.

## Token Overview

Ticker: MEGA

Blockchain: To be announced (EVM/Solana compatible option under evaluation)

Supply: 1,000,000,000 MEGA (fixed)

## Distribution

- Liquidity & Community: 60%
- Marketing: 20%
- Development: 10%
- Airdrops: 5%
- Team (12-month lock): 5%

## Utilities

- Community tipping and rewards
- Discounts on official merchandise
- Community-voted contests and grants
- Future integrations with partner dApps

## Security & Transparency

Multi-sig treasury wallets, time-locked team allocations, and public reporting. Contracts to be audited prior to major liquidity events.

## Roadmap (High-Level)

- Phase 1 – Brand & Community: Website launch, socials, meme campaign, fair token distribution.
- Phase 2 – Listings & Partnerships: DEX listing, initial CEX outreach, marketing pushes, creator partnerships.
- Phase 3 – Utilities: Tipping bot, merch store discounts, contest framework.
- Phase 4 – Growth: Additional utilities based on community votes, wider exchange listings.

## Disclaimer

Nothing in this document constitutes financial advice. Meme coins are highly volatile and speculative. Do your own research.
